# The Lakewood Customshop

Recommended retail prices (upcharges) in Euro (€) incl. 22% IVA

In the Lakewood Customshop you can put your very own personalized guitar together if you can't find the right guitar for you within the models of our standard series.

**Hints before you start:** Your Customshop guitar is based upon a foundation model, whose features are marked with the words "Standard" in the following list. By choosing different options in each category you can design this base model individually and make it your private guitar. Prices need to be added accordingly.

At [www.lakewood-guitars.com](http://www.lakewood-guitars.com) you will find the Lakewood Guitar-Designer that

enables you putting the guitar together virtually. With this unique configuration tool you are producing your guitar three-dimensionally on the screen and have a look at it from different angles. We strongly recommend using this tool as it will help you to achieve a conclusive design. In the course of designing you can generate an overview with all details and save your design as a PDF file. If you want to order a guitar you just follow the order request wizard, which will guide you through a step by step assistant to pick a dealer and generate an order code. The following list shows the available features with their according upcharges grouped in categories.

## Start configuration

### Body shape & base price

The calculation of the total price of the guitar starts with the base price

For the shapes D, M, A or J	<b>2.254 €</b>
For the new C-Shape (small Concert model)	<b>2.004 €</b>

**Note:** The C-Model is not yet implemented in our guitar designing tool on the web site. If you wish to configure a C-shape Customshop guitar get in touch with us via email please.

### Guitar type

6-string steel-string acoustic guitar	Models M, D, A, J
12-string steel-string acoustic guitar*	Models M, D, J
Baritone guitar**	Models M, J
Nylon-string guitar	Models M, A

\* 12-string models always have a 630mm scale length and the body-neck-joint at the 13<sup>th</sup> fret

\*\* Baritone guitars always have a 680mm scale length

**Note:** The nylon-string guitar type is not yet implemented in our guitar designing tool on the web site. If you wish to configure a nylon-string Customshop guitar get in touch with us via email please.

### Orientation

Right-hand version	Standard, all models
Left-hand version	no upcharge, all models

### European woods

A Customshop guitar can be configured in a way that only makes use of European timbers. This option needs to be selected in the very beginning of a designing process. After that only certain (European) materials are being shown in the selectable options.

no upcharge

Is it difficult for you to imagine those options and how they look together? The Lakewood Handbook shows all selectable features in a sample picture.

If you want to configure your personal guitar on a computer and look at it before it is even built, make use of the Lakewood Guitar-Designer, a 3D configuration tool on our web site [www.lakewood-guitars.com](http://www.lakewood-guitars.com).

For ordering a guitar send the specification PDF you generated in the guitar designing tool to your favorite Lakewood dealer. They will assist you in the further process of ordering a guitar.
